PROFILE

Self-taught frontend developer with expertise in HTML, CSS, JavaScript, and React. Built and deployed projects like a Movie Database App using APIs. Passionate about solving real-world problems through technology and eager to expand my skills in full-stack development. Currently studying Electrical and Electronics Engineering at the University of Lagos

WORK EXPERIENCE

Tech Enthusiast

2022 - PRESENT

Self-Taught Developer

- Independently learned frontend development through online platforms, mastering HTML, CSS, JavaScript, and React
- Built and deployed a Movie Database App using The Movie DB API, demonstrating proficiency in API integration and responsive design.
- Shared projects on LinkedIn and GitHub to build a professional online presence and receive feedback from the developer community. .

PROJECTS

Movie Database App

- Create and manage the marketing budget, ensuring efficient allocation of resources and optimizing ROI.
- Oversee market research to identify emerging trends, customer needs, and competitor strategies.

Personal Portfolio Website

- Created a responsive portfolio website using HTML, CSS, and JavaScript to showcase my projects and skills.
